Schedule

- Categories same as 2015, but how nominations are crafted will change; information will be available on the NASCIO website **mid-to-late February**.
- NASCIO nomination period officially opens **March 1**.
- Nomination proposals due to Meagan Macvie by **March 2**.
- Michael Cockrill and Connie Michener will decide on category submissions by **March 8**.
- Meagan will work with agencies on official nomination submissions **March – May 4**.
- Washington's nominations submitted on **May 6**.
- Submission deadline is **May 13**.

Proposals should include:

- **1-page summary** of project, including the category or categories in which this project could be nominated.
- **1-page description** of the business problem/solution, benefits of the project (financial and non-financial), and how the project improved government operations.
- **Data** available to support that the project was a success.
- Work with your communications department.

All projects must be completed between December 1, 2013 and December 1, 2015. Innovative Emerging Technologies, can be in implementation or beta stage through June 1, 2016.
